

**ComplianceTool™** is the fastest growing SaaS (software as a service) compliance technology solution for mid-sized and smaller public companies.

## **WHY:**

- **Quick setup & rollout**
  - Total software setup configurability to Client's environment on a single screen which requires no hardware or software to be installed within Client's environment
  - Step-by-step rollout approach including templates covering all facets from initial risk scoping exercises through the monitoring of the exception remediation process
- **Ease of use**
  - Immediate familiarity to all users with software interface due to simulation of a Web browsing experience accessing dropdown menus
- **Best price value**
  - Start meeting your compliance initiatives for as little as \$500 per month (see below)

## **Pricing:**

### **ComplianceTool™ SaaS (Software as a Service) Technology Offering:**

<b>Silver User Package:</b>	10 user package @ \$500 per month**
<b>Gold User Package:</b>	25 user package @ \$1,000 per month**
<b>Platinum User Package:</b>	50 user package @ \$1,500 per month**

**2 Day Software Activation & Training Session:** \$3,000 (plus travel related expenses if applicable)

Two day training session held on-site at the Client's location covering the 3 phases of software activation:

- **Phase 1** (day 1) – Software hands-on training session
- **Phase 2** (day 2) – Setup software configurations specific to Client's environment
- **Phase 3** (day 2) – Transitioning existing data & documentation into the software

\*\*Based on a minimum annual commitment.
